WASHINGTON (AP) - President Johnson's current effort to curtail the Vietnam war has been sharply criticized in broadcasts from Moscow and Hanoi picked up by U. S. The Hanoi broadcast, a statement of the Viet Cong's

National Liberation Front in South Vietnam, appeared to reject Johnson's reported proposals for reciprocal enemy action if he ends the bombing of North Vietnam. U. S. officials characterized the statement as "not

encourageing" but also as not decisive. The front demanded, as it and Hanoi have long done, that the United States end the bombing of the North unconditionally and "recognize and talk with" the front in

order to settle the war in the South. The U.S. - backed Saigon government was bitterly denounced as "a clique of traders."

N.Y. Labor Crisis Deepens

NEW YORK (AP) - The nation's largest city struggled today through the greatest municipal labor cirsis in its history, with its 1.1-million pupil public school system paralyzed by a teachers' strike, its police patrolmen engaged in a work slowdown and its firemen set for a slowdown of their own. The crisis was at standstill, with talks scheduled late today

Policemen continued to call in sick, in what police officials said appeared to be increasing numbers compared to the 2,049 who reported ill Monday.

About 2,500 off-duty patrolmen demonstrated at City such legends as "Bullets Know No Parity" and "God is Not Dead, He is in Gracie Mansion," another reference to Mayor John V. Lindsay whose official residence is the mansion.

ATHENS (AP) - Caroline and John Kennedy left Greece today for New York and a return to school, but had weather still kept their mother's honeymoon yacht tied alongside their new Greek stepfather's island.

The Kennedy children took a nonstop TWA flight to New York. They were accompanied by their grandmother, Mrs. Hugh D. Auchincloss, and her husband.

All had attended the wedding Sunday of Mrs. John F. Kennedy to Greek shipping magnate Aristotle Onassis on Scorpios, the small island in the Ionian Sea which he owns.

The President had called for licensing of gun owners and registration of all firearms, but he said "the voices of a powerful lobby-a gun lobby" have prevailed "for the moment in an election year.

"Big as this bill is, it still falls short," the President said because of the lack of licensing and registration provisions. In a Cabinet room bill signing, Johnson declared: "Today

Unless Sikeston has a good business climate, we will not get any more industry. More industry means more jobs. More jobs means more opportunity of employment so once again we say to the employes of Malone & Hyde.

Here are the most important reasons why we feel you should vote AGAINST the union:

1. A union strike would hurt you -- there has been no strike at our Sikeston warehouse since 1964, because The approach of Congress and the United States there has been no union in our warehouse since then. We had a union back in 1964 and there wasastrikethat hurt

2. The union outsiders do not have one penny They are doing so because under a new law individuals invested here -- they have not provided a single job -- they problems until we had a large work force with steady

3. The union has never signed your paychecks -- it has never paid for your benefits -- and it never will!

4. No matter what happens, the union outsiders will never have any power or right to make any decision The post office department is following the guidelines about the operation of this warehouse -- the union will organizers put out!

5. Your job security depends on your good work and although there is a vague restriction against commercially the success of your company -- the union outsiders cannot guarantee security for anyone here for even one

Remember -- no matter what you have said or done in the past, you can still vote NO union in this election. Guns, illegal drugs and literature which advocates Your right to vote NO is guaranteed by Federal Law.

Don't fail yourself and your family -- vote NO!!

America's Need---Trusting Each Other, Muskie Says

By BRUCE BIOSSAT NEA Washington Correspondent

Sen. Edmund Muskie, the graceful man from Maine who quickly became a star in this campaign, seems at first hearing simply to be doing his earnest bit to blunt George Wallace's assaults on northern Democratic workingmen's

In fact, his proposition to the voters is both more daring and more sweeping than that. .

over the Vietnam war, long divided over the racial struggle begins at 10 p.m. Nov. 16, and handicapped children. The School and weary from decades in office, is the one agency which can unify the country in this time of strife.

Conversely, Muskie is saying that the Republican party cannot heal the nation's divisions because its appeal is consciously limited to the more fortunate Americans

The senator's charge against Wallace's third party candidacy is of the same order, only rougher. He alleges that the former Alabama governor would perpetuate disunity and generate new fears and hatreds by "building a wall" between affluent Americans and the restless, angry, dissatisfied folk who do not feel they have a stake yet in this country.

Here in a typical eastern seaboard city where racial clashes in the schools are common news and tension between blacks and white ethnic groups is easily sensed. Muskie called upon his fellow Poles, upon the Irish and other white Philadelphians to resist the temptation of Wallace's "alien message.

Vice presidential nominee Muskie himself acknowledged that the fight to elect the Humphrey-Muskie ticket is up a steep grade.

Vice President Humphrey and he are linked to a Johnson administration that is presiding in a time of controversial war, of unprecedented crime and unsettling turbulence.

Most of the polls so far suggest that the two struggling Democrats are being faulted severely as the inheritors of an unsuccessful establishment.

Nevertheless, the cool, rangy Muskie dares to say that the big issue of 1968 is not the war, not crime in the streets, not youthful unrest, but whether in the years just ahead millions Reading Liberty of Americans can learn to "trust each other, whoever they are, and take the risks of trusting each other.

If they want to take those risks, he adds, then the Democratic party-flawed and torn though he knows it to bemust be their instrument for governing.

It is Muskie's personal triumph that he makes it sound as believable as perhaps anyone could

In Muskie the facade is the substance. What the onlooker sees is instantly recognized as real. He has an air of fatherly authority that keeps him in gentle but firm command of the most unruly hecklers.

Yet, contrary to some published appraisals. Muskie is no miracle man who somehow shames all other contenders. It is Humphrey, not he, who bears the real burdens of the past and the pressures of the present. Muskie, the helper, does not suffer that hard test.

Maybe, but not certainly.

Because a question of morality not biology is involved.

Because Christ promised that he would guide his Church and not let it lead men astray. If the Holy Father were proclaiming as right something that is wrong, he would be misleading all the faithful and Christ's promise to guide his Church would be false. This simply can't be.

Because to say that the marriage act need not be left open to the transmission of life would be to eliminate the very reason for marriage itself the creation of human life. Instead of a union dedicated to love giving and life giving, marriage would become the mere seeking of self satisfaction.

Because approving artificial contraception would create a climate that would make infidelity easy, lead to a decline in morality and to the development of a society in which anything goes.

This concentration on self would leave many marriages childless—purposely barren of the principal element for which marriage was intended

Missouri Taxes

Have NOT Increased in Four Years

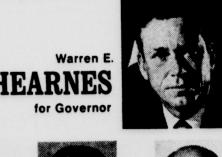

Remaining true to a pledge made four years ago, members of your Democratic administration have not increased Missouri taxes. Yet the improvements made through state government are unequaled in the history of our state.

State aid has been increased by more than 50% to public schools and 100% to higher education. Tax dollars have purchased nine regional clinics for the mentally retarded, increased medical and public assistance benefits for the elderly and the disadvantaged, and have added many more miles of improved roadways to our highway system.

There are reasons why these improvements could be made without a tax increase. New efficiency in government, sound administrative management, improved tax collection systems and fiscal responsibility have been combined by Democratic leaders with a successful drive for new industry and an expanding economy.

These proven leaders can provide Missouri with continued efficiency and effectiveness in government.

It is Muskie's personal triumph that he makes it sound as believable as perhaps anyone could.

In Muskie the facade is the substance. What the onlooker sees is instantly recognized as real. He has an air of fatherly authority that keeps him in gentle but firm command of the most unruly becklers.

Yet, contrary to some published appraisals. Muskie is no miracle man who somehow shames all other contenders. It is Humphrey, not he, who bears the real burdens of the past and the pressures of the present. Muskie, the helper, does not suffer that hard test.

Missouri Taxes

Have NOT Increased in Four Years

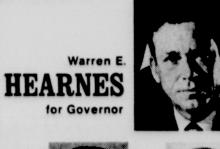

Remaining true to a pledge made four years ago, members of your Democratic administration have not increased Missouri taxes. Yet the improvements made through state government are unequaled in the history of our state.

State aid has been increased by more than 50% to public schools and 100% to higher education. Tax dollars have purchased nine regional clinics for the mentally retarded. increased medical and public assistance benefits for the elderly and the disadvantaged, and have added many more miles of improved roadways to our highway system.

There are reasons why these improvements could be made without a tax increase. New efficiency in government, sound administrative management, improved tax collection systems and fiscal responsibility have been combined by Democratic leaders with a successful drive for new industry and an expanding economy.

These proven leaders can provide Missouri with continued efficiency and effectiveness in government.

Often we are asked: "Why send flowers to someone after they are gone?" Or "Should we ask people to omit flowers?" First of all, flowers are never

sent to or for the benefit of the deceased. They are sent for those who mourn. Each flower sent is a silent bond of understanding between the donor and the family. It is a means of inter-personal contact. Flowers are fraught with re

WHY SEND FLOWERS?

Often we are asked: "Why send flowers to someone after they are gone?" Or "Should we ask people to omit flowers?"

First of all, flowers are never sent to or for the benefit of the deceased. They are sent for those who mourn. Each flower sent is a silent bond of understanding between the donor and the family. It is a means of inter-personal contact.

Flowers are fraught with religious significance. The bursting of bloom reminds us of the promise of immortality, the withering blossom brings to mind the transience of life.

Flowers alone are a thing of beauty and from this stems one of the most important functions of the necessity of flowers at a funeral, for they help create a beautiful memory picture not only for the family, but for the close friends and public. This memory-picture will be locked in the heart and mind to be cher-

One out of two families will have someone in the hospital this year! It could be you-or some beloved member of your family tomorrow...next week...next month. Sad to say, very few families have anywhere near enough coverage to meet today's soaring hospital costs. These costs have tripled in just a few short years. They are expected to double again in the few years ahead. Stop for a moment. Think how much a long stay in the hospital will cost you or a loved one. How would you ever pay for costly, but necessary, X-rays, doctor bills, drugs and medicines?

What would you do if your pay check stopped, but living expenses kept going on the same as ever? The same rent, phone, food, all the day-to-day expenses that never stop.

What is the average breadwinner to do? We believe we have the answer in the famous Presidential Extra Cash Plan that

. . . Pays you \$100.00 a week tax-free cash when you go to the hospital.

What a blessing it is when you know you have an extra \$100.00 cash coming in every week - beginning the very first day you

Now, Presidential's economy plan enables you to enjoy this protection at once. Because it will NOT cost you \$20.00. It will NOT cost you \$10.00-or even \$5.00. Your special low price is just 25¢ for the first month's coverage for your entire family. Then continue at low Presidential rates.

Your cash benefits increase each year at no extra cost to you!

And what peace of mind not to worry about rising costs. Your protection automatically increases \$3.00 a week each year. The first year you get \$100.00 a week. You get \$103.00 a week in the second year. \$106.00 a week in the third year. \$109.00 a week in the fourth year. By the eleventh year, your policy will be worth a full \$180.00 a week in benefit payments . . . at no increase in cost to you! This genero's cash reserve protection will belong to you for as long as yo .eep the policy. You can see that your insurance will be worth much more than the present "face value" of the policy. Certainly, our increased payments to you will help keep pace with rising costs and - best of all . . .

... The increasing benefits come to you at no extra cost.

You still pay the regular low Presidential premium! What other Plan protects you like this today? What other Plan keeps protecting you against rising living costs in the years ahead without increasing your premiums? And that's not all. This special Presidential Extra Cash Plan (#HP 18L-1067) ...

. . . Pays you \$100.00 a week CASH for a registered nurse at home.

Yes, in addition to the \$100.00 weekly checks we send you during your hospital stay, we pay you an extra \$100.00 a week if the doctor says you need a full-time registered nurse to take care of you at home.

How comforting it is to know that-after your stay in the hospital, if you've been there three days or more, you can return

PAYS up to \$10,000.00 CASH for each accident or illness, starting the very first day in the hospital. PAYS up to \$7,000.00 CASH at the rate of \$70.00-A-WEEK if you are 65 or over . . . in addition to Medicare.

PAYS \$100.00 A WEEK CASH—if you need a full-time registered nurse when you come home from the hospital - up to 50 weeks. PAYS \$1,000.00 EXTRA CASH for accidental death.

PAYS up to \$2,000.00 CASH for accidental loss of limbs or eyesight.

PAYS \$100.00 A WEEK CASH for each pregnancy, when you go to the hospital, assuming both husband and wife have been enrolled in the Family Plan With Maternity. PAYS up to \$5,000.00 at the rate of \$50.00 A WEEK when a child goes to the hospital for any acci-

dent or illness when you are enrolled in the Family Plan.

IF YOU ARE 65 OR OVER YOU WILL COLLECT \$70.00-A-WEEK IN ADDITION TO MEDICARE

Why are smart folks over 65 now hastening to protect themselves with the Presidential Extra Cash Plan in addition to what Medicare will do for them? Even though Medicare is a great boon to folks over 65, it will not, of course, pay all the bills that quickly

pile up as a result of illness or accident. Regardless of your age, you still need additional health protection.

We have designed this plan as the important addition to what you receive from Medicare - or any other health insurance you may have. Remember, all checks will be sent directly to you (not to the doctor or hospital), to give you that "extra" help just when you need it most. Use the tax-free cash any way you see fit. And you will be glad to know the checks will be big ones! In addition to what you receive from Medicare, Presidential pays you \$70.00 a week . . . EVEN FOR 100 WEEKS if necessary! You can receive as much as \$7,000.00 for each illness or injury when hospitalized!

home to recuperate and yet not be a burden to your loved ones. Yes, if your doctor says you need a registered nurse full time within 5 days after you come home, we'll send you checks for \$100.00 a week - for as long as you need the nurse - even up to 50 weeks. It's like having a reserve of \$5,000.00 cash to draw on when you need it. These benefits also increase each year by \$3.00 a week. Another exceptional feature you have with F si-

... Pays you \$100.00 a week cash maternity benefits - up to 100 weeks for each hospital stay!

Ordinary hospital insurance may take care of part of your expenses when you go to the hospital to have a baby. But what policy can you think of that gives you cash to buy all the things you need for the new baby? Now, if both husband and wife are insured in the wonderful Family Plan With Maternity for the entire period of the pregnancy, you get extra cash to use any way you want. If a pregnancy, childbirth or even miscarriage puts you in the hospital for one day, five days, 10 days — as long is necessary - you get \$100.00 a week for every day of your onfinement, up to 100 weeks.

Yes, in addition to \$100.00 a week for hospitalization or \$100.00 a week maternity benefits and \$100.00 a week for a registered

Added cash benefits: \$1,000.00 cash to your family if death occurs within 90 days from any accidental injury. Think of how handy the cash can be in time of loss. It can take care of burial expenses without burdening your loved ones. Added cash benefits: Up to \$2,000.00 cash for accidental loss of

limbs or eyesight, when the loss occurs anytime within 90 days of the accident. The loss of a limb or eyesight is a terrible thing. Nothing can replace the loss, but a check for \$1,000.00 or \$2,000.00 brings peace of mind during the period of adjustment. Added cash benefits: Choose either Family Plan . . . and your children will be covered too! Presidential pays up to \$5,000.00 any time your youngster goes to the hospital . . . for tonsils, appendicitis, or any other illness or injury! Yes, you will receive \$50.00 cash, week after week - for as many as 100 weeks, if

We pay your premiums when you are not able.

As a special consideration to you - if you are hospitalized just 6 weeks or more, all premiums that come due while you are still in the hospital after this period will be paid by Presidential. And your protection continues as if you were paying the premiums yourself! Then if you leave the hospital and must return for the same condition before you have resumed full normal activities for 90 days, Presidential will again PAY ANY PRE-MIUMS WHILE YOU ARE IN THE HOSPITAL - TO A MAXIMUM OF 100 WEEKS per confinement! This means you pay no premiums, yet your full protection remains in force you collect up to \$10,000.00 for each confinement!

THIS LIMITED ENROLLMENT OFFER ENDS SOON Only 25¢ for First Month — Money-Back Guarantee.

You can now have your first month's protection for your entire family for only twendy five cents! But you must act immediately. Your request for this wonderful Income Protection

To the best of my knowledge and belief neither I, nor any person listed above, has been refused any health, hospital or life insurance I understand that I, and any person listed above, will be covered under this Policy for any injury or sickness I (we) had before the Effective Date of the Policy but not until it has been in force for a continuous period of two (2) years; and that this Policy shall not be in force until the Effective Date shown in the Policy Schedule. ■ I am enclosing 25¢ for the first month's coverage for

MAIL ENROLLMENT FORM BEFORE MIDNIGHT SATURDAY, OCT. 26, 1968

Plan must be mailed on the convenient Enrollment Form NOT LATER THAN MIDNIGHT of the date shown. This midnight expiration hour cannot be extended. If your

enrollment form is mailed later, it cannot be accepted. These are the ONLY exclusions!

Your Presidential policy covers every conceivable kind of sickness or accident except conditions caused by war or any act of war; mental disorders; intoxicants and narcotics; where care is in a Government hospital; pregnancy except as provided under the maternity benefit provision; and expenses resulting from any sickness or injury you had before the Effective Date of your policy... during the first 2 years only.

This last item is a real help if you already have a health problem. If you are sick before you take out this policy, you will

How can 25¢ buy so much?

You can buy ordinary insurance at any time and pay the reg-ular rates, if you wish. But Presidential can now provide you and your entire family with tax-free Income Protection for just 25¢ the first month only because we en oll a large number of people at one time — direct by mail! This highly efficient "Mass Enrollment" method cuts costs to the bone—and the savings are passed on to you!

Medical Costs Skyrocketing!

Govt. figures reveal your present health protection... may no longer protect you against today's rising medical costs! Don't leave your loved ones defenseless! Act at once to add up to \$10,000.00 to your health protection for only 25¢ for entire family.

Make your decision carefully.

Think how costly a hospital confinement will be. Imagine pay ing for those indispensible x-rays, doctor bills, medicines and drugs that are not covered by your present insurance.

Would you be able to afford the quiet and privacy of a private room a private nurse, should you so desire? Or a telephone

to keep in touch with loved ones? Or the rental of a TV set to help pass the lonely hours? Who would pay your bills that keep on coming in at home? Many folks have lost their life savings, their cars, even their homes trying to meet such expenses. And no one knows whose turn it will be next.

Why you must act before the deadline date shown on

your enrollment form—just a few days from today. Why do we give you so little time to apply for your insurance policy—only a few days? Because, as mentioned above, we must receive your Enrollment Form the same time as all the others in order to pass on to you the savings that come from processing many policies at one time.

We mail you the policy as soon as we receive your Enrollment Form. When the policy arrives, examine it in the privacy of your own home. Take all the time you need. It's a very short document, and you'll be pleasantly surprised to discover there is NO FINE PRINT. Then - show it, if you wish, to someone you trust. Perhaps your lawyer, accountant, or banker. Better still - show it to your own insurance man...even though he may very well be working for another company! If he is a personal friend, he has your best interests in mind. So you can believe him when he tells you there is no better bargain available anywhere - at any price!

Money back guarantee—in case you change your mind.

Even after you mail your Enrollment Form below...even after you examine the policy in your own home and talk it over with anyone you wish . . . even after all this you are still free to return the policy within 15 days and your quarter will be refunded at once. There will be no obligation whatever.

Meanwhile, all during the 15 days you are making up your mind—you'll be protected by \$100.00-A-WEEK extra cash benefits just as if you had already said "yes." That's right, you will be fully covered all this time for any accident which puts you in the hospital, even if you finally decide to return the

However, after you've seen the policy for yourself, you will surely agree that this is a tremendous value and you'll want to continue this \$100.00-A-WEEK extra cash protection under

THESE 23 QUESTIONS AND ANSWERS Tell you how Presidential's COST OF LIVING INCOME REPLACEMENT HEALTH AND ACCIDENT PLAN gives you

the protection you need — at amazingly low cost!

1. How much will my policy pay me when I go to the hospital?
You are paid \$100.00-A-WEEK cash every single week. And it starts the very first day you are in the hospital. If you are over 65, you are paid \$70.00 a week, in addition to any Medicare benefits you receive. You are paid \$50.00 a week up to 100 weeks every time your children go to the hospital when you are enrolled in the Family Plan.

2. Will I be paid if I am hospitalized for less than a full week? You certainly will ... regardless of whether you are in the hospital for as short a time as one day ... or as long a time as a week, month, year or more.

3. Does the Plan pay you from the first day of hospitalization?
Yes! You receive full cash benefits of \$100.00 a week starting
the very first day you enter the hospital. The coverage begins
when we accept your completed Form and 25¢—that is the day
you and your loved ones are covered for any accidents. Sickness
coverage begins 30 days after the effective date of the policy.

4. How much do I receive for a Registered Nurse at Home? \$100.00 A-WEEK for up to \$5,000.00 after you have been hospitalized for 3 days or more, and your doctor has you employ a full-time registered nurse within 5 days after you leave the hospital. Ten years from now it will have increased to \$130.00 a week in benefits . . . at no extra cost to you!

Are there any accidental death benefits?
Yes. \$1,000.00 cash is paid to your estate when death occurs any time within 90 days of an accident.

6. Will I be paid extra if I lose a limb or eyesight? Yes. Presidential pays \$1,000.00 for complete accidental loss of one hand or one foot or sight of one eye; \$2,000.00 for loss of both hands or both feet or sight of both eyes... when dismemberment occurs anytime within 90 days of the accident.

7. How much do we receive for pregnancies? If you have the Family Plan With Maternity, you receive \$100.00-A-WEEK for as long as 100 weeks for each pregnancy, childbirth or miscarriage that results in hospital confinement when both husband and wife are enrolled under this plan for

the entire period of pregnancy.

8. Suppose I am paid benefits for any sickness or accident. What happens if I am again hospitalized for the same condition?

Don't worry. You still collect \$100.00-A-WEEK for a total of 100 weeks. And if you have already resumed full normal activities for just 90 days, it's considered a new confinement, and you can collect for an additional 100 weeks. Of course, any new condition is covered immediately for a full 100 weeks.

9. How may I use these benefit payments? You may use them in any way you wish—for hospital and doctor bills, rent, food, household expenses, or anything else. This is entirely up to you.

10. May I apply if I am over 65? Yes, you may. Folks any age are welcome to apply—there is no age limit! Members 65 or over are paid \$70.00 a week plus all Medicare benefits.

11. Can I collect from Presidential even if I carry other insurance?

Of course. This plan will pay you in addition to whatever you may receive from any other policies, including Medicare for folks over 65.

12. Why do I need this Presidential Plan in addition to my other hospital and health insurance? While hospital costs have tripled in recent years, very few people have tripled their insurance. The chances are one in seven that you will need money to take care of all your other expenses, as well as your hospital bills. Your Presidential checks are rushed to you by air mail to use as you see fit.

13. What benefits do my eligible, dependent children get?

If you choose a Family Type Plan, your dependent eligible children, ages 3 months to 19 years, would receive 50% of all the cash benefits of the basic Plan (excluding Waiver of Premium). 14. May I add future dependent children to my policy after it is

Yes, indeed, if you have the FAMILY PLAN WITH MATERNITY.
Just notify us when they are 3 months old and they will be covered without evidence of insurability and any additional charge.

15. Will my protection be cancelled because I have too many claims? No, definitely not! Presidential guarantees never to cancel your protection because you have too many claims or because of advanced age. We also guarantee never to refuse to renew your policy unless the premium is not paid before the end of the 31-day grace period, or unless renewal is declined on all policies of this type in your entire state. (Of course, if deception is used in making application, the policy may be ineffective.)

16. Will my rates be raised as I grow older or if I have too many No matter how many claims you have, or regardless of how long you keep your policy, your rate will remain the same as it was for your age when you applied. Presidential guarantees never to adjust this rate unless the rates are adjusted on all policies of this type in your entire state.

The only conditions not covered are those caused by: mental disorders; intoxicants and narcotics; where care is in a Government hospital; expenses resulting from any sickness or injury you had before the policy Effective Date (during the first 2 years only); act of war. EVERYTHING ELSE IS COVERED—including pregnancy when both husband and wife have been enrolled in the FAMILY PLAN WITH MATERNITY for the entire period of pregnancy.

period of pregnancy.

18. What are the requirements to enroll in one of the Presidential You must not have been refused any health, hospital or life insurance; and, to qualify during this enrollment period, you must enroll before midnight of the date in the coupon.

Why is this offer good for a limited time only? Because, by enrolling a large number of people at the same time, underwriting, processing and policy issuance costs can be kept at a minimum—and we can pass these savings on to you.

Besides the savings, are there other advantages to joining Presidential during this enrollment period?

Yes, there certainly are. A very important one is that you do not need to complete a regular application—just the brief enrollment form in the lower left hand corner of this page. Also, during this enrollment period there are no other requirements for eligibility—and no "waivers" or restrictive endorsements can be put on your policy!

21. Can other members of my family take advantage of this

Yes, as long as they can meet the few requirements listed under Question 18. How does the money-back guarantee work?

PLAN III - FAMILY PLAN WITHOUT MATERNITY

This plan is for the family that is no longer growing. To the total of the monthly premium for the adults to be insured, just add \$3. With the exception of children yet-to-be-born, PLAN III covers all your unmarried, dependent children between the ages of 3 months and 19 years who live at home.

NOTE: The regular Monthly Premium shown here (for your age at time of enrollment) is the same low premium you will continue to pay; It will not automatically increase as you pass from one age bracket to the next. Once you have enrolled, your rate can never be changed because of how much or how often you collect from us — or because of advanced age — but only if there is a general rate adjustment, up or down, on all policies of this type in your entire state.

One out of two families will have someone in the hospital this year! It could be you-or some beloved member of your family tomorrow...next week...next month. Sad to say, very few families have anywhere near enough coverage to meet today's soaring hospital costs. These costs have tripled in just a few short years. They are expected to double again in the few years ahead.

Stop for a moment. Think how much a long stay in the hospital will cost you or a loved one. How would you ever pay for costly, but necessary, X-rays, doctor bills, drugs and medicines? What would you do if your pay check stopped, but living expenses kept going on the same as ever? The same rent, phone, all the day-to-day expenses that never stop.

What is the average breadwinner to do? We believe we have the answer in the famous Presidential Extra Cash Plan that ... Pays you \$100.00 a week tax-free

cash when you go to the hospital.

What a blessing it is when you know you have an extra \$100.00 cash coming in every week - beginning the very first day you enter the hospital.

Now, Presidential's economy plan enables you to enjoy this protection at once. Because it will NOT cost you \$20.00. It will NOT cost you \$10.00—or even \$5.00. Your special low price is just 25¢ for the first month's coverage for your entire family. Then continue at low Presidential rates.

Your cash benefits increase each year at no extra cost to you!

And what peace of mind not to worry about rising costs. Your protection automatically increases \$3.00 a week each year. The first year you get \$100.00 a week. You get \$103.00 a week in the second year. \$106.00 a week in the third year. \$109.00 a week in the fourth year. By the eleventh year, your policy will be worth a full \$180.00 a week in benefit payments... at no increase in cost to you! This genero s cash reserve protection will belong to you for as long as yo ...eep the policy. You can see that your insurance will be worth much *more* than the present "face value" of the policy. Certainly, our increased payments to you will help keep pace with rising costs and — best of all . . .

... The increasing benefits come to you at no extra cost.

You still pay the regular low Presidential premium! What other Plan protects you like this today? What other Plan keeps protecting you against rising living costs in the years ahead without increasing your premiums? And that's not all. This special Presidential Extra Cash Plan (#HP 18L-1067)...

 \$100.00-A-WEEK for up to \$5,000.00 after you have been hospitalized for 3 days or more, and your doctor has you employ a full-time registered nurse within 5 days after you leave the hospital. Ten years from now it will have increased to \$130.00 a week in benefits... at no extra cost to you!
